

Prompt Suggestions

GeneAPI Chat: STRING API

To invoke the API:

- i. show gene-gene interaction network
- ii. show protein-protein interaction network
- iii. gene network
- iv. network
- v. interaction

To test the API:

- i. single gene or protein name
- ii. multiple genes or proteins separated by spaces

GeneAPI Chat: ENRICHR API

To invoke the API:

- i. show enrichment analysis
- ii. show pathway
- iii. enrich
- iv. enrichment

To test the API:

- iii. upload list of genes as a csv file and click enrichment button
- iv. upload “enriched” results as csv file and click visualize button;
choose form of visualization: Network graph or Categorical Visualization
