For using GENEVIC, you would need Azure Open AI subscription.

If do not already have a group or institution subscription, you may request an **individual** one from Microsoft Azure.

Key steps below (or detailed guide can be found here: Azure Open AI documentation (https://learn.microsoft.com/en-us/azure/ai-services/openai/) )

1. Sign up for a free account at MS Azure (https://azure.microsoft.com/en-us/free) (**use your work email associated with Microsoft Office)**
3. Request for Open AI subscription(https://learn.microsoft.com/en-gb/azure/ai-services/openai/overview#how-do-i-get-access-to-azure-openai) (use your work email associated with Microsoft and not personal email or else application will be denied).
4. Create and deploy a Chat GPT/other GPT model(https://learn.microsoft.com/en-us/azure/ai-services/openai/how-to/create-resource?pivots=web-portal).
5. Copy the settings in the relevant place in GENEVIIC( please refer to the video tutorial to see how: https://tinyurl.com/VideoTutorialLink.

**Good news! 1st time individual subscribers will receive $200 free credits for 30 days.**
